Flexible Paid Time Off Policy

Policy No. HR-210. Owner: Benefits and Absence Management. Applies to U.S. salaried colleagues at grade 54 and above who are enrolled in Flexible PTO.

1. Overview

Flexible PTO combines vacation, personal time, and short-term illness into a single annual allowance. Colleagues enrolled in Flexible PTO are not covered by the Nationwide Paid Sick Leave Policy, HR-204, and should not combine the two allowances.

2. Annual Allowance

Years of service	Annual allowance	Protected sick portion
Less than 5	18 days	40 hours
5 to 14	23 days	40 hours
15 or more	28 days	40 hours

The protected sick portion is a subset of the annual allowance, not an additional grant. It is tracked separately only so that the legal protections that apply to sick leave continue to apply to those hours.

3. Scheduling and Approval

Submit requests in Workday at least ten (10) business days before the first day of absence. Managers approve based on business coverage and should respond within three business days. A request may be declined for coverage reasons, but a manager may not decline the protected sick portion described in Section 2 for a qualifying reason.

4. Carryover

Up to five (5) unused days carry into the first quarter of the following year and expire on March 31. Flexible PTO is not paid out at termination except where state law requires it.

5. Interaction with Leaves of Absence

Flexible PTO runs concurrently with any unpaid statutory leave to the extent permitted. Coordination is handled by the Absence Management team, not by the colleague's manager.
