Travel and Expense Policy

Policy No. FIN-402. Owner: Corporate Controller. Applies to all colleagues who incur business expenses.

1. Principles

Spend the firm's money as carefully as you would spend your own. Choose the lowest reasonable fare or rate that meets the business need. Submit expenses within thirty (30) days of the expense date; reports submitted after ninety (90) days require a written exception from a Managing Director.

2. Common Limits

Category	Limit	Notes
Domestic airfare	Economy	Premium economy allowed on flights over 5 hours
Hotel	$300 per night	Higher in New York, San Francisco, and Boston
Meals, per day	$85	Receipts required for any single item over $25
Ground transport	Standard class	Ride share preferred over rental for trips under 3 days

3. Non-Reimbursable

- Airline seat upgrades purchased for personal comfort
- In-room entertainment, spa, and fitness charges
- Traffic and parking fines
- Personal travel added to the start or end of a business trip

4. Approval

Your direct manager approves reports up to $5,000. Reports above $5,000 route to the next approval level automatically. Managers must review line items before approving; blanket approval of an unopened report is a control failure and is reported in the quarterly expense review.
